Atlantic Resolve

Overview: USAREUR deployed companies from 173d IBCT(A) on 23 APR 2014 to Poland, Lithuania, Latvia, and Estonia to provide Persistent Presence for training and exercises in support of NATO Allies. Enhanced distributed training and exercises enables NATO's Connected Forces Initiative (CFI) ultimately leading to a NATO mission. Demonstrate NATO resolve, assure Allies, improve interoperability, expand training & exercises assist countries to desired level by 2020.

Context: Decreased force structure in Europe with a resurgence of a hostile Russia.

Identified Challenges:

1. BCT Operating from Baltic to Balkans to Spain
2. RAF alignment versus assigned forces and capabilities
3. NATO interoperability
4. Mature theater = "Freedom Of Movement" issues

Potential Solutions:

5. Longer RAF alignment = True Regional Expertise
6. NATO Training in CONUS
7. Common NATO SOPs versus national procedures

Best Practices:

8. Pre-deployment training
 9. Robust regional trainup and PDSS program
 10. RSOI: flexibility to meet theater training requirements as necessary
